Roatan Island Honduras

Planned by Florida Hospital Physician Support Services

Roatan Island Honduras is an unspoiled adventure traveler's vacation paradise in the Caribbean. Roatan has blue skies, sun drenched clear turquoise water, and year round temperatures in the high 70s and low 80s. Imagine stepping back in time to the 1950s. Roatan Island lies 30 miles off the coast of Honduras and is 33 miles long and 4 miles wide. You won't find four star high-rise hotels, golf courses, shopping malls, or fancy stores. Roatan Island offers first class scuba diving, scuba certification and outstanding snorkeling. Roatan water activities include deep sea fishing, fly-fishing on the flats and mangroves, swimming with the dolphins, and ocean kayaking. Land activities include riding horses, exploring lush tropical scenery, shopping for island crafts, eating at some of the best restaurants in Honduras, and viewing the butterfly and floral gardens.

The beautiful Caribbean island of Roatan in the Bay Islands of Honduras offers some of the world's best SCUBA diving. The island is surrounded by the world's second largest coral reef, hugging most of the shore. This provides calm, clear beaches for swimming and snorkeling, and many varieties of sea life. Roatan is not as "touristy" as many Caribbean islands, but you will find plenty of activities and things to see and learn about the island and Honduran culture.

Join Florida Hospital's Physician Support Services for a working vacation. Even though the beauty of the islands are pristine the healthcare needs are very underserved.

Work with local physicians in one of the outlining clinics or see patients in one of the two hospitals – work hard, play hard, and still enjoy time for relaxing.

Bring the whole family you'll be glad you did.

The island's friendly, "laid back" atmosphere is an ideal setting for relaxing and enjoying the many fine restaurants and other attractions such as Marble Hills Farms, the Mangrove Tunnel near Oak Ridge, Carambola Gardens, the Iguana Farm, the beautiful Tropical Butterfly Park, the Institute for Marine Sciences at Anthony's Key, and the Cameo Factory in Coxen Hole.
